

CBI^{OG} The Commonwealth Bank Institute Of Golf

Commonwealth Bank
Institute of Golf
Jagorawi

*"My Dream has
become a Paradise"*

Mr. Fakir - Founder

- The CBI^{OG} is one of the first golf performance facilities of world class standard in Indonesia.
- The CBI^{OG} is investing time, expertise and money into an intensive Junior Scholarship program aiming to give a select group of Indonesian golfers every chance of becoming golf professionals capable of playing on a PGA Tour in the future.
- The CBI^{OG} has the full support of Commonwealth Bank for an initial 5 year period minimum with great support from other Foundation sponsors Jagorawi Golf & Country Club and Titleist.

JAGORAWI GOLF AND COUNTRY CLUB

As a golf and country club facility, Jagorawi Golf & Country Club (JGCC) is by far Indonesia's most reputed. JGCC is the only golf club in the country that offers 45 holes of championship golf. The Old Course is the jewel in the crown of Indonesian golf and can stand any form of competition with reputed golf courses anywhere in the world. CBIORG (Commonwealth Bank Institute Of Golf) is a fully integrated professional teaching facility offering state of art training aids and video tuition to golfers of all ages and skill levels.

Not only from the standpoint of golf, has JGCC put itself in a class of its own. The Country Club offers anything non-golfing members of the family may wish for from trekking, jogging or just relaxing at the club's spacious swimming pool area. The Nusantara Polo Club offers another range of activities that can be enjoyed by young and old. The Spa facilities, that include sauna, Jacuzzi and massage, complement all the above mentioned amenities and make spending a full day at JGCC an unexpected pleasure.

The clubhouse restaurant is of international standard and offers a menu that includes western, Japanese and Asian cuisine. The Lodge at Jagorawi, with 8 standard rooms, 2 Deluxe and 2 suites, can make JGCC a comfortable "home away from home"

The Z-Nine

The Z-Nine was created by Jagorawi's owner and founder Zakir. In close cooperation with USA native and course designer par-excellence Max Wexler, the Z-Nine probably is the most challenging 9-hole course you can play in Indonesia. Nine terrific holes snake through the Cikeas River Valley where a minimum of earth was moved to create this little devil. Nature was maintained in its purest form and decade old trees were incorporated in the design.

Low handicappers will love the Z-Nine, while higher handicappers should play this course to try and take their game to a higher level. Eight times the Cikeas River needs to be crossed, indicating the presence of plenty of water hazards that luckily not always come into play. So don't worry, your ball may stay dry more often than you think.

The New Course

The Jagorawi New course is said to be long and difficult. And maybe it is. However, with a choice of 4 tee boxes, players of every level of skill can find enjoyment in playing it. Twice the venue of the Indonesian Open, the New course is more open and wide. Long hitters can grip it and rip it here. The front nine is a nice exercise for what is to come on the back nine. Holes #11, 12 and 13 are definitely the score killers where accuracy plays a more important role than distance. Designed by the same tandem Thomson and Wolveridge, with the New course both gentlemen were able to create an equally interesting but yet different layout than the Old course.
