

Ujang Zarems, “Let’s Go San Diego”

Update # 3

Ujang has continued to focus on his short game over previous weeks especially his pitching from inside 100m. We are expecting the course at Torrey Pines to play very long so it’s important that if Ujang does miss the greens he has the best chance possible for getting the ball down in two. With a few slight adjustments to his set up he has been down on the range focusing on shots from short distances. He has been practicing pitching to many different targets with a selection of clubs so that he can play a low pitch & run if required into the wind or a higher flop shot if required over a bunker. With the next tournament not until the Indonesian Junior Open here at Jagorawi, June 10th – 13th 2008, he will turn his focus towards practicing for this event which he is very determined to put in a good performance around his home course

Daniel O’Neill- Head Teaching Professional
